At present, the software only supports version of iPhone os2.2 and above, if phone firmware lower than this version please upgrade it. Please refer to below steps for more information.

Method one:

Step1：Enter into App Store function of iPhone

Step 2: Enable "search" function to search "SuperCam", the required programs will be displayed on the top of search box

Step 3: Click SuperCam, enter into "introduce" interface and click FREE", it will change into "INSTALL"

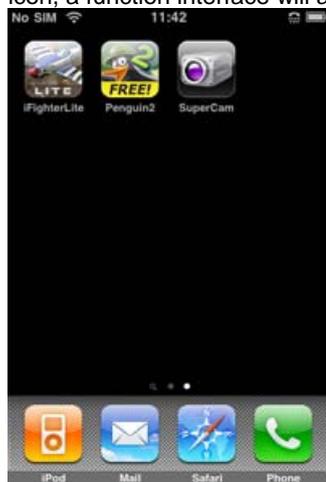

Step 4: Enter into iTunes Store password, click "OK" will display below interface

Note: if it was the first time for user to operate please enter into user ID; if there is no Store account,

user need to apply one.

Step 5: Just be patient to download and install. After installed, SuperCam icon will display. Click this icon, a function interface will appear

Step 6: Click 〝System setting〞, enter into login interface. Enter into server's IP address (or domain name), user's ID and password. Click Back to save.

Step 7: Click Live View, the default Cam1 picture will be displayed. Click ⬚ to capture picture. Click ⬚ to enter PTZ mode.

Step 8: On function interface, click Image View to view the captured picture. Click ◀ or ▶ to switch to next or previous picture. Click 🗑 to delete the current picture.
